SECOND WEEK OF STEEL STRIKE

Mill Owners in Pittsburgh Say The Worst is Over

AN AIR OF OPTIMISM

Operators Report Favorable Increase In Man Power—Labor Leaders, However, Are Confident.

Pittsburgh, Pa., Sept. 29.—The second week of the nation-wide steel strike started today with both operators and strikers claiming the progress which will insure ultimate victory.

Operators confidently asserted that the worst is over, that the strike "had shot its bolt" in the first week without winning and that from now on a steady increase can be expected in production and resumption of the industry generally.

An air of optimism pervaded steel circles generally, despite the throwing into effect of the strike order at the Schwab plants at Bethlehem, Steelton and other eastern Pennsylvania plants.

Early reports from mills in the steel city indicate a favorable increase in man power. Labor leaders were confident, however, that evidence of their real strength would be felt today when employes of Jones & Laughlin and the Bethlehem Steel Company answered the new strike call.

Jones & Laughlin officials reported the fourth attempt to call out their men had been a "psychological mistake," and that men reported today as usual—100 per cent. Less pickets, they said were on the streets this morning than at any time during the strike.

For the first time since the strike started, the Carnegie plants at Homestead declared today every department operating 100 per cent.

DEATH TOLL HEAVY

Estimated That 150,000 Die Annually of Tuberculosis—For Every Death There are Eight Cases

When the United States asked the young men of the country to rally to the national standard during the war the draft was found to be one of the best medical detectives that could be imagined. Through it the standard of health among the young men of the country was quickly and surely ascertained.

Altogether, out of the nearly 3,000,000 men who were picked by the draft 39,000 were found to be tuberculous. These men, enough to make up more than two divisions of soldiers, had to be rejected. They were unfit to take up arms for their country and, in fact, were a danger to their comrades.

Tuberculosis is one of the graves problems America has to solve today. Its death toll is enormous. Its sick toll is even greater. Every year at least 150,000 die of tuberculosis in the United States. For every death there are 8 open tuberculous cases reported. That means over 1,200,000 persons have the disease.

Tuberculosis can be prevented and it can be cured. That is the burden of the great educational campaign now being waged by the National Tuberculosis Association and the 1000 state and local organizations affiliated with it. The rapid growth of tuberculosis in the country, especially with the reaction from the war at hand means that more extensive education work is required. It must be forthcoming and such a campaign has been planned.

To obtain funds to teach everyone that tuberculosis can be prevented are to be sold just before Christmas.

After placing an advertisement in a newspaper, offering her son for adoption, Mrs. Baker found her mother love would not let her part with the child. She told her story to a reporter. thus

"My husband was a carpenter and we were very happy, but six months ago he died. I went out to work and had just succeeded in paying the funeral expenses when the baby was born. I still owe a doctor's bill. I have worked every day that I could find anything to do.

"I have no one to leave the baby with, as every one here works, and the neighbors complain when he cries. I thought I would let some one adopt him but somhow I just can't.

"Perhaps you could find something that I could do and not have to give up my son. I am a good cook and housekeeper and would be only too glad to work hard if I can only take my baby with me."

IN MEMORIAM

In sad but loving remembrance of George Everett Toy, who died two years ago, September 28, 1917.

I grieve for you dear Everett,
But not with outward show,
For the heart that grieves sincerely
Grieve silently and low.
I think of you dear Everett,
When I am all alone
For memory is the only thing
That grief can all its own.
Loved in life, remembered in death.

You cannot come to us dear darling
But some day we pray we will come to you.

BACK TO EDEN'S COSTUME

A few years ago it would have been difficult to make any one believe that the time was coming when human beings would be forced to dress as did the first pair—with leaves. This costume has been forced upon dwellers in far away Russia, the land of the ice king

People in some of the villages of Russia are wearing dresses made of leaves or grass sewn together with bamboo fiber, owing to the difficulty in obtaining cloth, says Major G. M. Towse, who is in charge of the Red Cross activities along the shores of the Black sea.

"I shiver when I think of what will happen to these little girls when the snow begins to fly," says the major.

The Red Cross is expected to distribute a shipment of clothing in parts of Russia before autumn.

THE STRIKE LEADER OF THE DAY

Possibly, no man is closer to the steel mill workers of Braddock, Pa., where the Edgar Thomson works of the Carnegie Steel Company is located, than Rev. P. Molyneux, pastor of St. Brendan's Roman Catholic Church, says the Iron Age. Father Molyneux in a recent sermon declared: "This strike is not being brought about by intelligent or English speaking workmen, but by men who have no interest in the community, and who do not have the welfare of the men at heart."

"There is one thing I have noticed about these strike leaders," continued Father Molyneux, "and that is, with very few exceptions if any at all, they never had on a workman's blouse in their lives never went into a mill in a pair of overalls—these men were never seen with the honest sweat of toil on their brows. The tan of brawn is not on their hands. They are a lot of smooth oily-tongued talkers with a kind of sympathetic whine appealing to you. They are royal gentlemen of leisure; they always wear fine clothes.

"These fellows, strike leaders, hoodlums that try to keep you from work, live on the bread earned by other people. They don't want to work themselves. They will tell you these mills ought to belong to you. Some of them say the mills ought to be driven out. Drive them out and what will you have? Weeds, stones, rattlesnakes, waste and desolation."

BRITISH RAILWAY STRIKE SYMPTOM

No more serious situation—short of actual revolution—could be imagined than such a paralysis of industry as the British railway strike will bring about. As the Philadelphia Inquirer says, "when transportation fails everything fails. The nation is cut off from its supplies of food, of coal, of practically every necessity of life. The menace to Great Britain is particularly serious in that tying up the railways means tying up shipping as well; and upon free communication by sea the very existence of the British people depends. This initial success, indeed, suggests eventual failure. It seems incredible that any body of men, however, well organized, can thus enforce exorbitant demands by seizing the public by the throat.

"All the evidence goes to show that the unions are under the control of the radicals, who see in them a political weapon. These men would hardly have been satisfied with any terms. They wish to make the position of the government untenable, to bring about a general election and to secure a larger represenation of labor in the House of Commons and, if possibe, a Labor Ministry. There are those among them who would go even beyond this and establish soviet rule. The strike, in short, is another skirmish in that "world war" which Bolshevism in its various forms is waging. That is why the situation in Great Britain is more serious than any since the days of Chartism."

BATTERING RAMS AT THE OLD STAND

Many years ago while both boards of the City Council were in session in the City Hall a band of evangelists with a brass band took up position on the corner of King and Royal streets half a square away. The City Fathers desired to be heard by the floor and galleries found themselves handicapped by the clanging cymbols and the blare of the horns, until the President requested the messenger to proceed to the place and ask the evangelists to shift their attack to some other citidel of susin.

Three bands of street preachers took position on King street last Saturday night. Two were stationed at the northwest corner of King and Royal streets, while another herald of the cross was exatiating at the northeast corner. At King and Washingon streets another bevy of itinerants were engaged in exhortation.

Two meetings were conducted simultaneously at King and Royal streets last night. On the northwest corner a man in uniform operated a base drum, and on the opposite corner a well known street preacher held the fort. The latter attracted a large crowd.

In the meantime empty benches confronted most of the resident clergy. We are told to "cry aloud and spare not," and those whose wont it is to speak in the open air seem to be bent upon obeying this command

BACK AT THE WHITE HOUSE

Returns Yesterday, Having But Short Nation-Wide Tour

President Wilson returned home yesterday, his nation wide tour of the country on behalf of the peace treaty and league of nations covenant having been cut short two days by illness.

The Presidential special, after what practically was a non-stop run from Wichita, Kansas, where the President's condition first caused concern, rolled into the Union Station at 11:05 o'clock yesterday morning. The President and Mrs. Wilson went directly to the White House and there, under the orders of Admiral Cary T. Grayson, his personal physician, he began to take his prescription of complete rest and quiet.

A 10 o'clok last night Admiral Cary Grayson, President Wilson's physician, gave the following bulletin on the President's condition to the press:

"The President has had a fairly comfortable day. He had a motor ride this afternoon.

DECLARE FOR OPEN SHOP

Boss Bricklayers Sever Relations With Journeymen's Union

Philadelphia, Sept. 29.—Weary of the delay in building operations because of the broken agreement of the journeymen bricklayers, 100 of the 135 boss bricklayers on the list met last evening at the Master Builders' Exchange and voted to adopt the openshop policy. After making the usual yearly contract at 87 1-2 cents an hour, the journeymen's union went on strike several weeks ago for $1.25 an hour. This the employers refused to pay, as their contracts had all been made on the 87 1-2-cent basis.

A few of the operation builders have yielded to the men, but the greater part of operations in the city have been tied up. By their action last night the boss bricklayers have practically severed their relations with the union which have prevailed for many years. They will now endeavor to get bricklayers without regard to the union.

TEST OF STRIKE FORCES

Walkout of 40,000 in Bethlehem Plant Means Victory, Union Claims

Pittsburgh, Pa., Sept. 29.—"The tide will turn for us today. The situation was never better since the strike started. Today we will have the Bethlehem plants shut tight as a drum and the Jones and Laughlin plant here, too"—William Z. Foster, secretary of the National Organizing Committee of Steel Workers.

"We have the strike licked. More men have reported for duty at our mills tonight than any night since the strike began. In Farrel two thirds of our plants are in operation. Several new departments opened up tonight. In Newcastle all the blast furnaces except one are going. In Braddock and Rankin conditions are improving."—Carnegie Steel Company.

These were the contradictory statements made last night by the two sides in the steel strike, indicating that the real test of strength will come today with the opening of the strike in the two plants of big independent companies.

YOU NEED NOT SUFFER FROM CATARRH

But You Must Drive It Out of Your Blood.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing difficult breathing and other discomforts. Real danger comes when it reaches down into your lungs.

This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be rid of Catarrh, you must drive the disease germs out of your blood.

Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote.

If you wish medical advice as to the treatment of your own individual case, write to Chief Medical Adviser, 42 Swift Specific Co., Atlanta, Ga.

AVOID THE "FLU" BUILD UP NOW

You can almost surely escape the "Flu" and Grippy Colds this Fall by Taking Chasco- Vin a Most Palatable Body-Building Tonic.

Don't put it off its much easier to keep the "Flu" away than it is to cure it.

No one would have the awful experience of a year ago repeated hence all should take every precaution, especially those who are weak nervous and run-down. They absolutely need Chasco-Vin.

During the last epidemic thousands were safeguarded by taking Chasco-Vin, a body-building tonic that does build.

It is the toning up of the system that counts in keeping the "Flu" away.

In conjunction with Chasco-Vin we advise using a good anti-septic solution for the throat and nose and also that the bowels be kept open.

Chasco-Vin is sold by Edgar Warfield, jr., King and Pitt Streets.

Smoke "Virginia-Carolina" Straight

Virginia-Carolina tobacco has the real tobacco taste!

Yes—and that's why it's smoked today in three-fourths of all the cigarettes made in this country. For most men enjoy Virginia-Carolina's body and flavor and *prefer* a cigarette that has the genuine tobacco taste.

Of course, any cigarette is improved by the addition of Virginia-Carolina. But a cigarette made entirely of Virginia-Carolina tobacco gives you ALL of its rare excellence of flavor.

Piedmont cigarettes are the real smokin'!

TO RESTART MILLS

Operators Threaten to Close Up Chicago Plants if Enough Workmen Do Not Return

Chicago, Sept. 29.—The crisis in the steel strike in the Chicago district is expected to come today, when an effort will be made to operate the mills at full capacity. Both sides were lining up for the struggle today.

Mayor Hodges of Gary issued a proclamation that every worker desiring to return would get police protection. At the same time it was announced that a citizens' police force of 600 had been organized. It was given out that the big mills were prepared to operate on a more extensive scale than at any other time since the strike.

The American Steel and Wire Company at Waukegan announced unless the men returned in force the plant would be shut down for a period of six months and no attempt would be made to reopen it, no matter what the outcome in the strike situation might be in the meantime. Other companies issued similar notices minus the time limit.

WILL RETAIN GRAND DUCHESS

Luxemburg, Sept. 29.—The plebiscite held yesterday resulted in a majority in favor of the retention of Grand Duchess Charlotte as ruler and for a customs union with France.

Women, old and young, notwithstanding the heavy early morning rain, went to the polls and voted with the men. It is believed that the women's vote proved the deciding factor in favor of the present ruler, Grand Duchess Charlotte. The clericals, who are supporting the Grand Duchess, paved the way for woman suffrage in Luxemburg.

Chief local interest was displayed in the question of an economic alliance—whether this should be between the Grand Duchy and Belgium or France owing to the dependence of the iron industry on outside raw materials.

An alliance with France was urged on the ground that France is the only Power able to give the coal needed for iron industry.

FIVE MILLION FACE DEATH

River Bug Divides Hungriest and Most Diseased Territory in World

New York, Sept. 29.—The River Bug, which served, until recently, as a boundary of the Bolshevik fighting is now a boundary of another kind.

Its eastern shore bounds on one side the hungriest and the most diseased and the most stricken territory in the world today. Five million people are at the point of starvation east of the River Bug, according to figures given out by the American Jewish Relief Committee, and compiled by the American Red Cross and American Jewish Relief agents. A great number of them are Jews. The war has left 6,000,000 destitute and stricken Jews in Eastern Europe, a number as great as the entire population of New York city, utterly helpless, in many cases sick, in every case hungry and dependent.

BOY SHOOTS UP STORE

Clarence Crockett, 20 Years Old, Runs Amuck—14-Year-Old Ross Gardner His Victim

Cape Charles, Va., Sept. 29.—Ross Gardner, 14 years old, son of Mr. and Mrs. Frank Gardner, a farmer of Cashville, Va., was shot and killed Saturday by Clarence Crockett, 20 years old, of Tangier, Va., Thomas Harrison, 12 years old, who was a companion of the Gardner boy escaped a similar death by hiding beneath a bridge.

The two boys were riding in a carriage and about one mile from Cashville Crockett came out in the road and opened fire on them, firing five shots. The first bullet penetrated Gardner's heart, and as he was falling from the buggy Crockett fired again, two more bullets entering the boy's back.

Previous to the killing, Crockett shot up the general store at Cashville driving the proprietor from the place and demolished all show cases and windows.

He has been taken in custody and placed in jail.

CONFESSES MURDER

Missouri Farmer, 75 Years Old, Says Daughter Threatened Him and He trangled Her.

Kansas City, Mo., ept. 29.—For twenty-three years Robert Hicks carried the secret that he had strangled to death his daughter, Luellen, nineteen years old. Not once did his conscience bother him.

It was on a lonesome part of the Hicks farm in Hickory County, Missouri, the afternoon of December 7, 1896, that the daughter threatened to shoot him. He had told her mother the young woman had spent an afternoon buggy riding with the hotel keeper of Urbana, and the mother chastised the daughter.

Hicks, seventy-five and feeble, recounted his story here as he sat in a train with J. B. McCaslin, sheriff of Hickory County, who is taking him from Chehalis, Wash., to Hickory County for trial.

"I was afraid she would do as she threatened," he said, speaking calmly in a low voice. "I was mad. I seized her by the throat with my fingers and squeezed. She didn't call out. She didn't fight. Her eyes rolled up and looked at me just like the eyes of a dog when you lick him. Then I took a piece of heavy grass twine from my pocket, I had been using it to tie gunny sacks, wrapped it about her throat, pulled it tight, and she dropped on the ground dead. I left her there."

Strike out from the Constitution of Virginia section one hundred and seventeen, which is in the words and figures following, to-wit:

Section 117. General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. The general assembly, at the request made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city.

Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

SHIFTS CRIME TO FORD

Sylvia Shows No Nervousness When Taken to Murder Scene

Refuting all statements that might tend to bring about his downfall, Joseph P. Sylvia, held by the Washington police for investigation in connection with the murder of Emmett E. Wood, soda fountain clerk at the Liggett drug store, 1346 F street northwest, Washington still holds the same non-committal attitude that has marked him since he was brought back to Washington.

Last night, at police headquarters Sylvia was confronted with William Henry Ford, former soda clerk, and once held as a witness in the murder mystery.

In a series of inconsistent statements Sylvia endeavored to switch the crime to Ford who had no trouble in establishing an alibi.

Information in the hands of the detectives shows that Sylvia is making a premeditated attempt to throw the responsibility upon Ford.

Police authorities last night voiced their conviction that Sylvia is lying, even at times when telling the truth would help his case. The quizzing at police headquarters last night brought forth no new developments.

SHOT DEAD IN STREET DUEL

New York's First Vendetta Since Chinatown Reformed

New York, Sept. 29.—Two men, bullet-riddled, fell dead in front of No. 78 Catherine street, yesterday, and a third was so severely wounded that his chance of recovery was said to be slight when he was taken to a hospital. New York has not had such a gun duel since Chinatown decided to be good.

The dead men are Joseph Gracino, 30, and Louis Valenti, 30, both of Manhattan.

The wounded man is John Blocco, 26. As the three were talking, an automobile containing three men drove up and one of the three alighted as it slowed down. He immediately opened fire as he advanced toward the group and the men in the car joined in the fusillade.

There was a return of shots from the men who were attacked, but almost immediately Gracino and Valenti fell to the pavement dead, and Blocco dropped a moment later. Some thirty or forty shots were fired. The automobile sped off without waiting for the man who started the shooting.

RIOTING IN NEBRASKA

Court House of Douglas County Set on Fire in Attempt to Lynch Negro

Omaha, Nebr., Sept. 29.—Rioting which began in the vicinity of the Douglas county court house late yesterday afternoon continued until evening, as the result of an attempt to lynch a negro, William Brown, held here for an alleged attack on a white girl.

Hundreds of shots were fired and it was reported that one sailor was seriously injured. The mob broke out more than a hundred windows on the south side of the structure, and a large number of them succeeded in entering the building. The building was later set on fire.

WILL BE NO STRIKE

Six Thousand Steel Workers at Sparrow Point Swayed by Counsel Of Their Parish Priest

Baltimore, Md., Sept. 29.—The 6,000 steelworkers of the Bethlehem Steel Corporation at Sparrows Point here will not obey the strike order of the National Steel Strikers' Committee today and the determination of the men to continue work is due in a large part to the influence exercised over hundreds of them by Rev. John Gaynor, pastor of St. Luke's Catholic Church at the Point, who, like Rev. P. Molyneaux pastor of St. Brenda's Catholic Church, at Braddock, Pa., has counseled the men not to strike.

Father Gaynor enjoys the confidence and respect of the men to an unusual degree. Ever since the strike cloud loomed on the horizon, in season and out of season, he has sought to influence the men against allowing outside agitators and labor leaders to interrupt the even tenor of daily life at Sparrows Point. And not only the employees themselves, the majority of whom are members of his parish, but the company officials also credit him with having been largely instrumental in averting threatened trouble.

AUTO PLUNGE

Machine Sideswipes Buggy Near Hancock, Md., on Way Home

Hagerstown, Md., Sept. 29.—One person was killed and three injured, two seriously, in an automobile accident two miles east of Hancock yesterday afternoon. The dead are: Mrs. Beulah Maxwell, Connellsville, Pa., neck broken. The injured: Mrs. D. P. Reighard, Pittsburgh, shoulder crushed and probably hurt internally; Mrs. Margaret Lyttle, Pittsburgh, head lacreated; Frederick Coyston, Pittsburgh, chauffeur, badly shocked.

The party was traveling in a large new automobile from Pittsburgh to Washington. In attempting to pass another auto and a buggy on the State road the machine sideswiped the buggy, and turned turtle over an embankment.

Tourists brought the injured person to the Washington County Hospital here. Coyston was jailed, charged with reckless driving. A jury of inquest was empaneled.

BICYCLE BUYING

One of the immediate results of the increase in street car fares in many cities has been a wave of bicycle buying that is keeping the wheels humming in bicycle factories. In the past few weeks several bicycle plants that have been closed for years have opened their doors and resumed operations with big orders ahead.

As a means of getting back and forth from work the bicycle seems to be winning back much of the prestige it enjoyed a score of years ago. Men living within a mile or two of their work find they can pedal to business in a few minutes, and can even get home at the lunch hour. There are few factories today where special arrangements are not made for the storage of employees' wheels while the men are at work.

One of the most promising features of the bicycle business is the big foreign demand, both for American bicycles and tires. —New York Evening Post.

SEIZE BOOZE WORTH $4,000

Miami, Fla., Sept. 23.—New impetus was given to the war against the smugglers of whisky and illicit dispensers early yesterday morning when deputies raided the home of D. R. Armstrong, West Twentieth street, and seized intoxicating liquors valued at nearly $4,000. The raid followed the arrest of Armstrong on a charge of selling whiskey.

$5,000,000 FOR DEMOCRATS

Atlantic City, Sept. 29.—The names of the men who will direct the fight for the election of a Democratic President in 1920 and the plans, in part of their campaign, were made public yesterday by Homer S. Cummings of Stamford, Conn., chairman of the Democratic National Committee.

Upon adjournment of the two days' session of the executive committee of the national committee, it may be said that the fight of 1920 actually started. Chairman Cummings departed for Washington authorized to open zone or divisional headquarters throughout the country, and sub-committees were appointed to draft a financial plan, a campaign of publicity, and to devise methods of organizing the women voters of the nation.

The executive committee adjourned to meet again within six weeks.

OHIO GUARDSMEN MOBILIZED

Regiment ready for Duty in Connection With Steel Strike

Columbus, Ohio, Sept. 29.—The Ohio National Guard of 12 infantry and three auxiliary companies, was mobilized yesterday for possible duty, supposedly at Steubenville.

The order is said to have been issued to keep good faith with Governor Cornwell, of West Virginia, who has been fearing an invasion of that State by Steubenville and Mingo strikers, who, it was reported, were slated to march today to Weirton, W. Va., to urge steel workers to quit work.

Adjutant General Layton last night held a conference at his office with Colonel Benson W. Hough, Delaware, who has been organizing companies of the old Fourth Ohio, and other Ohio Guard officers. Most of them were in uniform.

Hough, it was learned, was placed in command of troops.

It became known that men were sent today to get three machine guns from Camp Sherman.

If the action was taken on account of the Steubenville situation, it developed last night there probably would have been no need for it. It may be, however, that other possible contingencies are in the minds of the State authorities.

Ohio Guard companies last night were mobilized at their armories. It is not known whether they will be demobilized after the Steubenville situation is settled or whether they will be held for other possible eventualities in connection with the nation-wide steel strike

MRS. HOWELL FOUND GUILTY

Jury Requires Forty-Five Minutes to Return First Degree Murder Verdict

Miami, Fla., Sept. 29.—Mrs. Grace Howell, on trial at West Palm Beach under a charge of venue, for the murder of her husband, Thomas S. Howell, in Miami last year, was convicted Friday night of murder in the first degree, with a recommendation to mercy. The jury was out forty-five minutes.

According to testimony at the first trial in Miami and partly brought out in West Palm Beach, Howell filed suit for divorce because of his wife's alleged infidelity and immediately after the papers were served she shot him in the presence of several witnesses.

Mrs. Howell was tried here last spring, convicted and sentenced to life imprisonment, but took the case to the Supreme Court and obtained a reversal. A new trial was obtained and a change of venue granted.

The defendant heard the verdict without a quiver but her young daughter, Miss Grace White, who sat by her side throughout the trial, wept bitterly. Insanity was her plea. She professed to remember nothing of the tragedy and the events following for months.

UNIONS OF SLAYERS

Teuton Communists Imitate Russians in Ways of Removing Disagreeables

Philadelphia, Sept. 29.—Further reports state that the communists have murder centers at Hamburg, Munich, Erfurt and Eisenbach, besides Berlin and Halle, says a copyrighted dispatch from Berlin to the Philadelphia Public edger.

The Berlin murder center, of which Inspector Blau was a victim, had three communist leaders, namely, Leuschner, Fichtmann, and Herms. All three are under arrest. According to Fichtmann's confession, the Berlin murder center serves to remove unmasked government spies or persons disagreeable to the communists. These murder centers, organized according to Russian methods, have ample funds and passes for going abroad, besides large quantities of poison, murderous implements and firearms.

The Halle murder center is conducted by a Russian. The organization is of recent date. Its Berlin and Halle centers came to a speedy end owing to the discovery of its crimes.

Two prisoners in Halle are alleged to have removed persons disagreeable to the communist party. They say they were promised 40 to 50 marks daily for the time during which the deed was to be done. In reality, however, they received only 10 marks each, with which they were unable to make ends meet, so they committed robbery on a workman, which led to their arrest.

VOTE TO HOLD FIUME

Confidence in the government's ability to obtain Italy's desires was expressed by vote of 208 to 148, ten of the deputies not voting.

FIRE AT CONEY ISLAND

Fire in Nest of Amusement Devices Menaces Whole Resort Sunday

New York, Sept. 29.—Coney Island was threatened with destruction yesterday when fire broke out in the Sea Beach Palace, a resort located in the heart of the jungle of amusement devices which specialized in "Breaking the Hindenburg Line.'

The blaze was discovered before it made great progress, but held on for an hour and a half despite the combined efforts of several companies of firemen and squads of volunteers. A Thompson scenic railway was temporarily put out of commission.

UNCLE SAM BACK ON THE WARPATH

After finishing his job across the water Uncle Sam is now after the profiteers and others who are responsible for the hight cost of living. His sword is keen and he is shielded with a strong device.

WORKING AND SAVING WILL REDUCE PRICES

Governor of Federal Reserve Board Tells How Living Expenses May Be Cut Down.—Why Everything Went Up.

What is the best way to reduce the high cost of living?

"Work and save" is the answer given by the Federal Reserve Board in a letter written by its governor, W. P. G. Harding, to the Banking Committee of the United States senate. The committee had under consideration the proposal to reduce the volume of money in circulation. Governor Harding opposes this plan, holding that it will not afford the relief expected.

"The Federal Reserve Board believes," says Governor Harding in his letter, "that any currency legislation at this time is unnecessary and undesirable, and would suggest that whether viewed from an economic or financial standpoint, the remedy for the present situation is the same, namely, to work and to save; to work regularly and efficiently in order to produce and distribute the largest possible volume of commodities, and to exercise reasonable economies in order that money, goods and services may be devoted primarily to the liquidation of debt, and to the satisfaction of the demand for necessities rather than to indulgence in extravagances or the gratification of the desire for luxuries."

"During the last two years there has undoubtedly taken place a certain amount of credit expansion, Governor Harding shows, and this in the circumstances connected with the financing of the war was inevitable. But it will be corrected as the securities issued by the government for war purposes are gradually absorbed by investors. This expansion of credit is equal to the difference, Governor Harding says, between the total war expenditures of the government and the total amounts raised by the government through the medium of taxation and from the sale of its bonds and other obligations so far as they were paid for out of the savings of the people. He does not believe that any reliable estimate of this difference can be made, but he is positive that, whatever it is, it will be gradually absorbed through future savings for the reason that banks are lending and may always be expected to lend freely on the government bonds deposited as collateral.

The principal cause of prices advances just before and during the period of the war was the need of the governments of the allied nations for all kinds of commodities and for immediate delivery in large volume, and the competition of this buying by governments with purchases by private individuals who failed to restrict their expenditures at a rate commensurate with the growing purchasing power of these governments.

One of the features of the post-war period, through which the nation is now passing and which has been marked by rising prices, is the general relaxation of war-time practice of personal economy. This has resulted in an increased demand for food and clothing and other commodities, by many persons who during the war practiced a more or less rigid economy in their personal purchases. Also, it must be borne in mind that they are not only buying at market prices but are buying in competition with the export demand. In addition, largely increased wages and incomes during the last five years have developed a demand for many commodities which are now of real necessity. This naturally has diverted labor and raw and manufactured materials from essentials to non-essentials, contributing in small part to the trend of increasing costs.

TELLS HOW OTHER PEOPLE GET AHEAD

Pamphlet Issued by U. S. Treasury Answers Question "How Can I Save Money."

As an answer to the question, "How Can I Save Money?" the Savings Division of the Treasury Department has compiled an interesting and helpful pamphlet entitled "How Other People Get Ahead."

For individuals and families whose incomes are less than $5,000 a year this pamphlet offers a number of enlightening suggestions as to the disbursement of incomes of various amounts from $15 a week upward. Not only does the material furnish a ready answer to the problem of expenses but it affords an authentic source of information as to living costs. The figures were compiled from records of official government investigations into the several subjects and may be regarded as up to date and accurate.

This material makes possible a new attack in the movement to make thrift a national characteristic and to foster the habit of "Save First—Spend Afterward." It will interest people in saving more money by showing them how much other people find it possible to save and also by showing them how they can cut down the cost of living, comparing their costs with average costs in the same income groups.

The Saving Division suggests that an excellent way to drive home the truths of the budget system is to have the schedules discussed at school and taken home by the children for consideration by the families. Another method is to organize a house-to-house canvass through committees of women who will bring the budgets to the attention of families and secure their assistance to study their own situation.

Savings and spending budgets have been prepared to meet local conditions at a number of points, and much interest in the application of the budgets to the campaign is being manifested in sections of the country where the National Thrift Campaign is being carried out successfully.

LEPERS SET SPLENDID EXAMPLE IN SAVINGS

Colony of Unfortunates in Faraway Island Buys War Savings Stamps At $62 Per Capita.

Recent reports from Honolulu contain an interesting and unusual lesson in thrift which may be considered a record for the states to attempt. Sales of War Savings and Thrift Stamps among the inmates of the Penikese Island Leper Colony during July amounted to $62 per capita. Although the purchasers of these securities are a total of $1,984 of stamps.

When it is considered that this amount is far more than the per capita sales for the United States it is apparent that the optimism of these unfortunates, despite their station in life, is little less than remarkable.

Up to date the total sales of War Savings and Thrift Stamps in Hawaii is more than $2,020,000, or more than $20,000 in excess of its quota."

The faith that moves mountains is the faith that gets a steam shovel instead of an old hoe. Labor saving is what you want. It means money saving, too, for War Savings Stamps.

Spend a little less than you earn—it's a sure road to success. Put your savings in War Savings Stamps.

Thrift helped to win the war. It will enable us to enjoy the fruits of victory also.

LONDON PARALYZED

Industrial Stagnation Prevails Throughout United Kingdom

London, Sept. 29.—Industrial stagnation prevails throughout the United Kingdom.

All hopes for a settlement are blasted by the obstinate refusal both of the workers and the government to get together. Every attempt at conciliation—and there have been many in the past twenty-four hours—has failed.

The 1,000,000 railway men now idle are bound to draw other hundreds of thousands of workers into the maelstrom beginning today.

The great industrial centers of Leeds, Manchester, Birmingham, and Glasgow are paralyzed through the inability to supply the workers material with which to work.

Colleries and factories already are closing all over the land, throwing out hundreds of thousands of miners and other workers.

The country stands aghast at the extent of the demoralization that followed the breach between the government and labor.

WRECK DUE TO MALICE

Saboard Officials Say Switch Jaws Were Held Apart by a Stone

Petersburg, Va., Sept. 29.—Railway officials have no doubt that the wreck of Seaboard Air Line train No. 5 three miles south of this city early yesterday morning was caused by the switch being opened with malcious intent. The switch lock was broken, and the jaws of the switch held apart by means of a large stone. The switch lamp was stolen, the wick being found some distance from the lamp standard.

Dr. J. M. Burke, chief surgeon of the Seaboard, after a close examination, says he has little doubt that the wreck probably was caused by robbers. Embers of a fire above the scene were found. Bloodhounds followed a trail for about 2 miles, when it was lost at a street railway crossing.

The body of Enginer C. L. Smith, of Raleigh, was taken to Asheville yesterday morning for interment. The body of Harry Ferguson, the fireman, is still here.

The negro killed in the wreck, while beating his way, was identified as James Hobbs, of Dinwiddie county, for whom a reward of $100 was offered for shooting another negro about six months ago

GRAND THEATRE

If you were passing a dark house in a lonely street, and if a girl told you of a man dying within, what would you do? That situation confronted Marcel Levinget, an amateur detective and clubman of wealth, portrayed by Wallace Reid in his latest Paramount picture, "The House of Silence," which is to be displayed at the Grand Theatre tonight.

The story of this exceptional photoplay is intensely dramatic, and in the development of the plot a hatpin and woman's purse are the only clews Levingot can discover in his effort to trace th slayer. He finds her at last, only to learn that the slaying was legally justified, but it did not need this conclusion to inspire love for the distressed girl in the heart of the clubman-detective. After a series of thrilling incidents he unmasks the secret of the mysterious house and wins a pretty bride. Also "Perils of Thunder Mountain."

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Sare Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
